## THEO. P. HAUGHEY, Pres'L. H. LATHAM. Cash. CONDITION OF THE MARKETS

A Sharp Advance in the Chicago Pit During the First Hour of the Session,

But After a Few Narrow Fluctuations Prices Rapidly Weaken and a Decline Follows-Provisions Weak and Slightly Lower.

MONEY, BONDS AND STOCKS.

An Active but Weak Opening, Followed by a Quiet but Dull Closing. NEW YORK, May 28 .- Money on call was

easy at 14 to 2 per cent, the last loan being made at 14, closing offered at 14.

Prime mercantile paper, 426 per cent. Sterling exchange was dull but steady at \$4.862 for sixty days, and \$4.882 for demand.

The total sales of stocks to-day were 248,604 shares, including the following: Delaware, Lackawanna & Western, 9,200; Erie, 9.000; Lake Shore, 5,995; Missouri Pacific; 26,-000; Northwestern, 6,250; Northern Pacific preferred, 3,350; Oregon Transcontinental, 4,310; Reading, 84, 400; St. Paul, 35,957; Union Pacific,

20,000; Western Union, 6,921. The market was active and weak in the forenoon to-day, but recovered somewhat later, becoming quiet to dull. The general list was dull within a narrow range and all the character displayed was given a few stocks among which Reading, Missouri Pacific, St. Paul, and Union Pacific were most prominent. The continued weakness in Missouri Pacific is the main factor in keeping the market quiet. There was a fresh drive against the stock this morning, and the traders finding no support in it, jumped on it and its price was broken 3 per cent. The movement extended to other stocks and Reading became weak, though its loss was small in comparison with Missouri Pacific. The other Gould properties were weak and feverish, but never became prominent. London was a seller this morning, which also encouraged the "bears," and first sales were made on a heavy business at from 121 per cent below Saturday's final figures. Other fractional losses were sustained Missouri Pacific and Reading. The weakness sared after the first hour, however, most of the losses in the general list were recovered and Union Pacific became the strong feature, moving up materially on the renewal the stories of favorable action by The market then became very dull. In the last hour, however, Rock Island came to the front, declining about 3 per cent, the old story of a reduction in rate of dividend being used against the stock. The most of the list responded with fractional losses and the market closed quiet and weak, generally at semething under the opening former. at something under the opening figures. Everything is lower, and Missouri Pacific lost 2; Rock Island, 2; Reading, 1; Kansas & Texas, 1; Fort Worth & Denver and St. Paul pre-Investors are now confining their attention to

first-class bonds, which are in continual demand

while the supply is very limited. The transactions to-day were only \$1,175,000, and the business was very evenly distributed, the tone of the market being rather heavy for most of the day and prices were left irregularly changed. Government bonds were dull and steady. State bonds were dull and without feature. Closing quotations were: Canada Pacific..... 57-2 St.L. & S.F. 1st pref. 111-2 Canada Southern... 483s St. Paul....... 655s Central Pacific..... 20 St. Paul preferred... 108-4 Chesapeake & Ohio. 17s St. Paul, M. & M.... 101 C. & O. pref. 1sts... 3-2 St. Paul & Omaha... 36 C. & O. 2ds...... 21-2 St. Paul & O. pref... 109 Chicago & Alton... 136 Tenn. Butter heavy and lower; Western, 14@20c. Cheese dull and weak. CHICAGO, May 28.—The markets on 'Change started in somewhat byecontraries to-day. On Saturday corn, in particular, was weak, because of large receipts and improved weather, and this morning, with vastly greater receipts and the worst of weather, prices went up nearly ic in the first hour. This condition of affairs was brought about by liberal buying on the part of the representatives of the "bull" clique, who, aided by purchases of the "short" interest, succeeded in preventing the break which would un-doubtedly have occurred. July corn opened to lower, at 54tc, advanced to 55tc, reacted to 54tc and then settled into rather a quiet market at 55c. Later it advanced to 55tc. but reacted and 55c. Later it advanced to 55 to. but reacted and closed at 54 to. The wheat traders spent most of the; morning session waiting for the visible supply statement, and when the official figures, 1,360,000 bu, were announced, there was not enough of surprise in them to cause much of a movement either way. Up to 12:30 the market was rather tame and steady, and prices were just where they started. After a to fluctuation of to under and to over starting point, towards the close the market weakened rapidly, and the close was about the under the best figures for the day. July opened at 87c. fluctuated between 86 to 87to for some time, dropped to 86 to, advanced to 87 to 87 to for some time, dropped to 87 to 87 to for some time, advanced to 87 to 87 to, and closed at 85 to. In cats, the covering of May "shorts" was the feature of the market. May opened unchanged at 35 to, sold up to 37c, and closed at 36 to. July opened at 32 to, ranged at 32 to 33 to, and closed at 33 to. In provisions a lower range of prices was witnessed. Large receipts of hogs, coupled with a decline in the same, in-

of hogs, coupled with a decline in the same, in-creased the weakness developed at the close of last week, and initial sales were made this morning at a decline of 20c in pork, .07te in lard, and .10c in short ribs from Saturday's closing. Lard subsequently recovered from its depression, but in short ribs the day's actual depreciasion, but in short ribs the day's actual depreciation was.05c, and in pork 10 @ 12½c. Pork, before showing any recovery, declined 5½c below the opening prices. The trading was a little slow. "Shorts" were the principal buyers of product. Outside speculation was limited. July pork sold at \$14.014.15, and closed at \$14.10. July lard sold at \$42½.08.50c, and closed at \$47½c. July short ribs sold at 7.55.07.60c, closing at the inside. The leading futures ran ged as follows

Cash quotations were as follows: Flour dull and unchanged; No. 2 spring wheat,  $85\frac{1}{2}$ @ $85\frac{3}{2}$ c; No. 2 red, 89e; No. 2 corn,  $56\frac{1}{2}$ c; No. 2 oats,  $36\frac{1}{2}$ c; No. 2 rye, 68@ $68\frac{1}{2}$ c; No. 2 barley, 69c; No. 1 flaxseed, \$1.31; prime timothy-seed, \$2.25; mess pork, per bbl., \$14@14.05; lard, per pound,  $8.42\frac{1}{2}$ @8.45c; short-rib sides (loose), 7.50c; dry-salted shoulders (boxed), 6@6.25c; short-clear sides (boxed), 8.10@8.15c. Whisky, distillers' finished goods, per gallon, \$1.19.

On the Produce Exchange, to-day, the butter market was demoralized; receipts large;

creamery, 15@18c; dairy, 14@16c. Eggs firm at 13@13ic. Receipts—Flour, 19,000 brls; wheat, 28,000 bu; corn, 430,000 bu; oats, 276,000 bu; rye, 1,000 bu; barley, 7,000 bu. Shipments—Flour, 28,000 brls; wheat, 33,000 bu; corn, 383,000 bu; oats, 363,000 bu; rye, 1,000 bu; barley, 4,000 bu.

Hoosiers Working a Corn Deal. CHICAGO, May 28.—The Daily News says: "Affairs are getting very lateresting in the corn-pit on 'Change. From appearances the clique or cliques engaged in the present manipulation of the corn market are on top, but the anxiety of the shorts was somewhat allayed today by the story that it is a countryman's deal. This story was to the effect that a lot of farmers and prominent citizens from Goodland, Ind. none of them of financial calibre exceeding the \$100,000 limit, were a portion of the body, and that a millionaire lumberman and elevator man was the brains and front of the enterprise. The Goodland people headed by Hartley, of that town, and supplemented by Kenyon, of Steamington, and several others who have joined the country syndicate, were reported to have held a secret meeting Friday night, and it was also said that the meeting was not entirely harmonious. It had been discovered that one of the syndicate held a large line of property through a firm which had not done any trading for the syndi-cate, and it was feared that he would sell out on them at the wrong time. It is said that the receipts were worrying the syndicate, as it required a pile of capital to take care of them, but after Saturday's decline they finally concluded to give orders to buy enough property to hold the market to-day. It was discovered that this was unnecessary, as the market held without it. It now transpires that the syndicate composed of Brown and ten other local merchants and a local banker own over half of the current receipts, and that they are rushing them at this time for the double purpose of creating the impression that the "shorts" are bringing the corn in to deliver on May contracts and that they have chartered a 3,000,000bushel vessel capacity at a New York rate of 51c

per bushel, and that the corn will be speedily loaded for shipment." Grain in Store. NEW YORK, May 28.-The following was the visible supply of grain on Saturday, May 26, as compiled by the New York Produce Ex-

Wheat, 27,662,465 bu, a decrease of 1,359,763 bu; corn, 8,268,360 bu, an increase of 1,308,211 bu; cats, 5,002,811 bu, an increase of 484,114 bu: rye, 206,123 bu; a decrease of 55,517 bu; barley, 378,495 bu, a decrease of 105,093 bu.

TRADE IN GENERAL.

INDIANAPOLIS MARKETS. Trade Moderately Active, with a Pirm Tone

INDIANAPOLIS, May 28. In most departments trade to-day was fairly active, the heavy rains of late, and the better outlook for crops, helping masters considerably.

While the wheat crop is likely to fall way below
the usual average, the outlook for the coun crop
is fine, and the hay crop bids falls to be above
the usual average, which is an important thing for Indiana, as her hay crop has come to be third in importance in the list. In prices to-day there were but few fluctuations. A careful re-vision of the grocery market makes but few changes, and those upward in tendency. Coffees maintain their strong position. The New York Commercial Bulletin, of the 28th, says: "The eature upon which the opponents of a rising market for Brazil grades have been seeking comfort, was to be found in the assumption that Europe had considerable stock to spare, an idea partially indersed by the shipments in this direction, and occasional evidences of a desire to sell upon the exchange. Leading hous-

es with well-informed correspondents, however, assert that there is no supply abroad that can safely be parted with to any extent, and that the portion of the trade representing distributive and consumptive interest is quite as lightly stocked as here, and that scarcity between the two crops is likely to be universally felt, to say nothing of what might occur should the new crop prove more backward than anticipated. On the street market, to-day, the line of reports was of much the former general character, holders claiming most of the advantage and offering supplies sparingly, with no great amount of attention -paid to the weakness on contracts. which was looked upon as simply a natural reactionary movement from somewhat overstrained speculation." Regarding sugars the same authority says: "Refined, considering the weather and the end of the week, sold out pretty closely, and commanded full previous rates, with an inclination to ask a little more in some cases, though no change in quotations was warranted." In the produce markets there was a good deal of activity to-day, and prices on most articles were firm. Strawberries in light supply and our quotations were readily realized. Green vegetables, as well, were in light supply, but prices ruled no higher than last week, as the demand was light. Receipts of tomatoes were large and lower prices are likely to rule in a day or two. Shipments of early vegetables to the Chicage mar-ket are so large and prices rule so strong that Indianapolis commission men, to do anything, must hold to strong prices in this market to draw the produce. Butter is lower on increasing receipts. Poultry firm. If there was a little more honor among the poultry dealers it would be better for the market. Giving one price through the press and issuing circulars, sending them to persons who are selling to a competitor, in which a 1-cent higher quotation is given, for instance, on poultry, is a cut-throat method of doing business. Potatoes are firmer but no higher. The dry goods market was active to-day at unchanged prices. A num-ber of buyers were in and mail orders were

Receipts of grain, as per inspector's report, are some better, there being 25 cars inspected since Saturday noon, as against 19 cars for preceding day. Fair attendance on 'Change, but no animation in market. Wheat dull. Corn dull. Local manufacturers are in the market for all grades, but they are poor bidders. Oats trade sonfined to local jobbers. Feeds and hay dull and lower. The track bids were: Wheat-No. 2 red.....

July Corn-No. 1 white No. 2 white..... No. 3 white..... No. 2 yellow..... No. 3 yellow..... No. 4 yellow..... No. 2 mixed.... No. 3 mixed..... Sound ear white ..... Sound ear yellow..... Sound ear mixed..... Oats-No. 2 white..... August. 26

Mixing Hay and Grain Feed. Correspondence Country Gentleman.

Something like a year ago I examined the method of feeding pursued by the American and Adams express companies in their stables in New York city, where several hundred horses are kept. The man in charge of the feeding told me that they had tried cutting and mixing until they were satisfied that the loss by disease under that system was greatly increased and they had returned to their old method of feeding. At the time I was there their method was to feed grain at night when the horses returned from work, and afterwards to feed timothy hay. In the morning and at noon the horses receive grain, but no hay; the only hay fed being at night. The grain used was oats and corn mixed in the proportion of six of the former to one of the latter by measure. The grain was not ground, nor was the hay cut. The cutting and mixing system has been tried in this vicinity, in making milk, with varying results. The most thorough trial that I know of was on a farm where over 100 cows are kept for the production of milk, a large proportion of which is made in the winter. Something over a year ago the owner began with the most convenient and thorough arrangements to cut and moisten all his hay and corn stalks, and to mix them with the grain very carefully. He informed me that it paid, and "paid big," as the cows had incressed their flow of milk eighty quarte a day.

During the past winter 1 visited his stables again, and was informed by his foreman that they had tried cutting and mixing for over a year, and had now gone back to the old system of feeding the grain by itself wet up in tube, and the hay and stalks dry. He added, "the change has increased the flow of milk 160 quarts

Of the others who have tried it, some do not think it paid and have discarded it, while others are still working at it and think it pays. Do you know of any scientific experiments that have been made in this line?
